

NEWSROUND

Principals Message

Dear Parents and Community Members,

A brief news update to you all. A reminder that we have now returned to remote learning. Staff are able to contact via u-educate us via email. Many thanks to you all for your amazing support during this complex period. Our students are well in the forefront of stepping into learning once again using technology devices in which all have support with at home. Be patient and remember that the day is really focused with learnings in Literacy and numeracy with links to themes and broad topics. Make the time to have a break with your child and do remember that the end of the day is at 2.30pm.

REMOTE LEARNING

The platform of uEducateUs will be the link for learning conversations in preference to telephone calls. This is regularly checked. Have an awesome time once again teaching at home! We are here for you so do not hesitate to ask if you need support. Do check with your child that he or she has all passwords for their computer programs, if not please contact us Mr Turner or Mr Tunks. As per remote learning previously, all work is posted on uEducateUs so be sure to login, send a reply back to your teacher so that they can mark the daily attendance and jump into learning.

SCHOOL COUNCIL MEETING

Our next school council meeting shall take place on August the 11th via Webex. The meeting shall commence at 4pm sharp. Please send via uEducateUs us or by phone any agenda items for discussion. Focus shall be on building and grounds projects and time will be available after the meeting for DET operational guidelines that may need clarification COVID19.

The Webex link and agenda shall be sent out the day before via uEducateUs.

2021 ENROLMENTS

We are now taking enrolments for 2021 for all year levels. If you would like to come and check out our wonderful school please ring up the school on 5829 0273 and book an appointment today. We will also be releasing more information next term with dates for our open days and the possibility of more kinder visits just like previous years. Stay tuned for more information to come.

AT HOME LEARNING IDEAS

Be active!

Construct a backyard obstacle course with hula hoops, jump ropes, sticks, stones, hoses, and other materials from around the house. Your children can take turns completing it.

Make a bird feeder.

Invite summertime birds to your yard with a DIY bird feeder. To make it, simply coat sticks with peanut butter and roll them in birdseed. It's the perfect opportunity to teach kids about nature and animals.

Let's cook!

Choose a favourite food—such as grilled cheese, sandwiches, wraps, homemade yoghurt or biscuits —and make it with your child. Write a procedural text explaining the process.
